### Preparedness

the setup prepared him well enough  
the texts were good indicators that  
helped him realize that he was  
going through harder iterations of the  
same challenges

### Difficulty :

Is not a platformer enthusiast  
there were tricky jumps but it never  
felt impossible.

the pits could use sinking  
a little bit .

the moving platform  
is a bit confusing

Change timing and motion range .
